

The **Children's
Cardiomyopathy
Foundation** presents...

Understanding Pediatric Cardiomyopathy

A Parent's Guide to the Disease

Launched as part of CCF's **Parent Empowerment Program**, the 14-page overview booklet and accompanying inserts on dilated, hypertrophic, and restrictive cardiomyopathy were designed to answer the most common questions that parents have following their child's diagnosis or while managing their care.

The easy-to-understand materials provide basic information as well as practical tips on coping with a chronic heart disease. Developed after in-depth patient and physician interviews and then medically reviewed, **Understanding Pediatric Cardiomyopathy** is an essential resource for parents, caregivers, and healthcare professionals.

TOPICS COVERED

- What is pediatric cardiomyopathy?
- What causes cardiomyopathy?
- How is cardiomyopathy diagnosed?
- What are the common symptoms?
- What are available treatment options?
- What is the likely prognosis for my child?
- Should my family undergo screening or genetic testing?
- How will the disease impact my child and family?
- How do I cope with a chronic disease?
- Where do I go for more information and support?
- What research is underway?
- What else should I keep in mind?

UNDERSTANDING PEDIATRIC CARDIOMYOPATHY Order Form

Please print clearly and fax form to CCF at 201-227-7016:

First Name	Last name	Professional Title

Medical Center/Clinic		

Department		

Street address		

City	State	Zip code

Telephone	Fax	E-Mail

How many cardiomyopathy patients do you see on an annual basis? _____

I would like to order _____ copies of *Understanding Pediatric Cardiomyopathy*

Please note that shipping and handling fees may apply on orders of more than 5 booklets mailed outside of the U.S.

For more information about **Understanding Pediatric Cardiomyopathy** or other patient education materials, please contact the Children's Cardiomyopathy Foundation (CCF) at 866-808-CURE (2873) or info@childrenscardiomyopathy.org

The Children's Cardiomyopathy Foundation is a national non-profit organization dedicated to finding causes and cures for pediatric cardiomyopathy through the support of research, education, awareness, and advocacy.
