

The Children's
Cardiomyopathy
Foundation presents...

Secrets of the Heart

Living with Pediatric Cardiomyopathy

This educational DVD serves as an easy-to-understand overview for parents of children with cardiomyopathy. The 38-minute video presents

the unique stories of three very different families, all who have successfully lived through the challenges associated with cardiomyopathy. You'll learn about two cousins who have overcome two very different cases of hypertrophic cardiomyopathy. You'll meet a mother and her young son, who was diagnosed with restrictive cardiomyopathy at the age of two and transplanted only a few months later. You'll also be inspired by the story of two sisters and how they've bravely dealt with dilated cardiomyopathy throughout their lives. These heart-felt stories are interwoven with valuable information from top cardiomyopathy experts.

This excellent resource provides knowledge and comfort to families learning to cope with this chronic heart disease. Viewable from a DVD machine or computer, the video can be shown to families in-hospital or given out with other patient materials during clinic visits.
